CYNTHIA BRIGANTI

6A13-7

*The highest-ranked
Independent Distributor
in Enagic history!*

*“The world is diverse
and complex.
This means that
we need to show
similar diversity
in our responses.”*

Enagic Founder and CEO Hironari Ohshiro

Message from Mr. Ohshiro

Take Success to Heights You Never Thought Possible

Cynthia Briganti reached 6A13-7 in June, making her the highest ranked Independent Distributor ever and the first -7 in Enagic history. When we first implemented Enagic's patented 8-point compensation plan, this level of achievement would have been hard to imagine, and it's taken 47 years for an Independent Distributor to reach this height.

As you'll read in the interview with Cynthia, she has faced and overcome much emotional and financial adversity in her life. We can all learn valuable lessons from the "science of setbacks." We all follow different paths, but it's rare to reach success without struggle. I applaud all of the Independent Distributors who have conquered life's challenges to achieve greatness.

We have broken down many barriers together in the past year. My long-term goal of selling 20,000 Kangen Water machines and Ukon subscriptions in a single month became a reality. Steadily growing global Enagic business and supporting Independent Distributors remain constant goals to fuel our greater mission of achieving True Health. By continuing to share Kangen Water, show compassion and tell other people about the Enagic opportunity, it's just a matter of time before we accomplish our revised goal: 25,000 units a month.

And don't forget to drink your Kangen Water and stay hydrated during the warm summer months. Let's go grab a glass.

Hironari Ohshiro

Change Your Life Story

6A13-7

CYNTHIA BRIGANTI

Cynthia Briganti achieved a rank that's unprecedented for an Independent Distributor: 6A13-7. Given the momentous occasion, the highly spiritual California resident shared thoughts about her Enagic journey, which has been atypical in the best ways possible.

What does achieving the 6A13-7 rank mean to you?

It's like a grace from God because I did not expect it. I feel like I don't really deserve it. For me, it's so gratifying because someone out there, I hit the rocks, and he pushed me up... All I can say is, thank you, Lord, and thank you, Mr. Ohshiro, for having this rank.

How did you first discover Enagic?

Through 6A12-6 Romi Verdera. Romi and I worked together in another company. He invited me to come and see in the beginning. At the time, I'm not really impressed with the water because I don't drink water, but when 6A9-6 Jayvee Pacifico showed me the marketing plan, that's the time I started to drink Kangen Water. In one week, I went full-time, and jumped from 1A to 4A.

When I saw Enagic, I saw the potential. Jayvee was changed, so that's why I

decided to do this full-time. I tried to pray and God was showing me that water is one of the creations of God. That's why I joined, but I never asked for help from Jayvee or Romi. I joined, but it's like I'm a kite that nobody is holding the line.

Why else did you decide to become a Distributor?

I am really independent. No upline is helping me because I don't want them to help me. I know if you work for God, God is your upline. I thank God and Mr. Ohshiro for creating the system and connecting me to Jayvee and connecting me to Romi.

Where did you grow up?

I grew up in the Philippines. In Davao.

What brought you to the United States?

Through prayer. I was a battered wife and there was a time that I wanted to give up life... I was ready to jump from the highest building and I saw this paper that lifted me to skydiving. To feel how you feel when you jump... The wind kept on hitting and I touched the paper. It's a piece of paper. It's not really complete, and it says, "One dead female skydiver." Can you believe that?

I went straight to Nichols Field, a military air base, and I told them, "Can I apply as a skydiver?" I was so big. They're laughing at me, but the master jumper promoted to accept me just so I could lose weight. I did lose weight and did the best jumping. The best jump ever. His purpose is to make me lose weight. That is his motive, but because of my training, consistency and focus, I lost weight and I became the best jumper. My first jump, I hit the target.

What was your first sale with Enagic and how did you find the opportunity?

At the front of the house, there's a trail where people can go jogging. They went there. They were so thirsty. They were hoping I was in the house, so they knocked on my door. They were calling me because that woman knew my house. She came to

my house to find water. I said, "No, no, no, I don't have water anymore. I don't buy bottled, acidic water." She said, "Wow, are you a health freak now?" I said, "No, I have Kangen Water..." She drank the water and said, "Who is your upline here?" I said, "Oh, she's in New York, but her upline is Jayvee Pacifico." She said, "Is there any way that you'll be able to call him?" I wrote him and Jayvee signed him up right away... I didn't even know what I was doing, but I started receiving commission checks. That's the time I said, "This is it. God is giving me a chance to continue my mission on Earth."

What are your goals for the future with Enagic?

My goal in Enagic is to help teach the people on how to recruit, how to sell, how to close sales. I'm already content with what I have, but to teach the people how to become what I became. That's what I'm going to teach them. God first and you won't be last because God will provide. Just have faith in yourself. My equation of success is God + Action + Faith + Belief = Abundance. Multiply it with victory. Never give up. Keep going. You'll be victorious, and when you're victorious, nobody can ever stop your victory because God is with you. And then God equals freedom. You have freedom. The equivalent of freedom is happiness.

Are there any hobbies you enjoy or other ways you like to relax?

I started painting when I was alone after I joined Enagic. I was so desperate because I was thinking of fighting a bankruptcy for the third time. The first one was my divorce. The second one, I can't pay anymore. By God's grace, I did a Chapter 13 to save my house. The third time, I was thinking of filing a Chapter 7, but for me, I feel like, "Why should I file? I'm just going to work for Enagic." Every time I make a sale, my thinking is, it's like I'm looking at the canvas and in my eyes, it's like, "There's something wrong with my painting." I start to improvise. Every time I think I'm happy, I'm going to do something. I start to paint. At first I start to paint the freeway because we're at the top of the hill. The road has unstoppable cars running back and forth, going to the left and the right. And airplanes. In front of our house, there is an airport. I said, "Why are you going to quit, Cynthia? Look at life. This is life. You have to fight." I started painting. Even if I make a lot of sales today, I still have time to paint. That's my happiness that I dedicate to God. I did his work. "Thank you so much for the sales. I dedicate this painting to you." That's my motive.

For me to relax, I'm revising all my clothes. I never buy clothes. I just revise my clothes from where I came from until now. That's my enjoyment. Then talking to people how good is God, that's relaxing. Talking to God. The more you talk to God, the more God

will praise you, and the more God will bless you... The person that makes you, that's part of his cup overflowing. If you ever receive it, don't consider it a blessing; just thank the person. You have to learn how to show gratitude for the gift. Your blessing really comes from your effort. That's what I tell people all the time. Enagic's business plan is like a plan from heaven. You won't get anything bigger if you don't perform... Your performance becomes a multiplier.

How do you like to communicate with your downlines? What do you like to do to educate and motivate them?

I reach out on them by phone, through Zoom, FaceTime, Facebook, and I keep on using social media. On Facebook, I post everything I have. People say, "Don't post your house. There might be burglars." I said, "That's wrong. Don't worry about it, because I don't own the house. It belongs to God." What I own is my spirit that God is giving me, the life I make abundant.

STRONG KANGEN Water

pH 11.0 or Higher

Water Profile

Most Enagic water machines produce five types of filtered, ionized alkaline and acidic waters through electrolysis:

Strong Acidic Water: pH 2.7 or lower

Beauty Water: pH 4.0 - 6.0

Clean Water: pH 7.0

Kangen Water: pH 8.5 - 9.5

This month, we profile Strong Kangen Water, which has many cleaning and food preparation applications thanks to its dissolving and heat conducting properties. Strong Kangen Water is not for drinking.

Cleaning

Clean oil from cutting boards and dish cloths. Use for general cleaning in the kitchen. Cut through tough grime on vents.

Dishes

Use less detergent when washing dishes. Only one-third to one-fourth the normal water is necessary to rinse off detergent. Save money on water bills in the process.

Food Preparation

Remove rawness from vegetables like green onions, bamboo, wasabi and flowering fern.

Stain Removal

This extra strength water will help remove coffee, soy sauce, and oil stains. Strong Kangen Water is also great for getting out stubborn stains around the home.

For best results, let Strong Kangen Water sit for a few days in an airtight, dark container prior to using. This allows calcium mineral "hardness" to leave the solution, strengthening the water's cleaning and degreasing power.

India Distributor Profile

Rajan Ramakant Manjrekar 6A7-5

“Enagic was a call of my subconscious mind,” 6A7-5 Rajan Ramakant Manjrekar says. A visit to friend 6A7-4 Samir Potdar’s house led to trying Kangen Water for the first time, an unplanned occurrence that changed his life. Rajan still remembers the day he first drank Kangen Water: March 12, 2015.

The Mumbai native, who still lives in India’s largest city, witnessed mentor 6A2-2 MingWay Sia’s demo and found the experience so powerful that he quickly gave his boss three months notice, bought a Kangen Water machine and committed to becoming an Independent Distributor.

“As an experienced direct seller from two decades, I could sense the solid opportunity,” he says. “I understood this was the only company where I could achieve all my dreams.”

His next goal is to become “-6” before March 17, 2022, citing the “auspicious day for us, the birthday of our Father of Kangen, Mr. Ohshiro!”

“Fortunately, I have leaders working with full focus on their individual targets,” Rajan says. He considers late downline

6A6-4 Updesh Malik and 6A2-2 Priyanka Satish Kadam as “one leg” and 6A2-4 Pavan Reddy as his “other leg” in his Enagic journey.

Rajan communicates with his team through WhatsApp, phone calls and Zoom training sessions. Whether his downline is 6A or 1A, he stays in constant

contact. “Whichever teams ask for support I am always ready to extend my hands with them,” he says. “We have full training modules designed from beginner to leader. I believe each of us needs support whatever level we are. Alone we can't do much, but as team we can move mountains!”

Pavan Reddy

6A2-4

6A2-4 Pavan Reddy's passion for business (and a close friend) convinced him to become an entrepreneur. He teamed with 6A2-3 Prakash Shastri on an e-commerce company franchise. During that endeavor, Prakash met 6A7-5 Rajan Manjrekar on a business trip. Later, Rajan casually mentioned Kangen Water and the other two men picked up on the opportunity.

Initially, Pavan was skeptical of Kangen Water's potential benefits, so to see whether he and Prakash should commit, he watched an online demo from 6A16-4 Daniel Dimacale, “I was shocked after seeing the video,” Pavan says. “I could not sleep the whole night.” He watching more videos and testimonials and read articles about “restructured water.” He soon traveled to Malaysia to experience Kangen Water machines in-person.

“I went to Enagic Malaysia's office and met very gentle and affectionate human beings, 6A2-2 MingWay Sia and 6A2-2 Thomas Yep,” Pavan recalls. He attended their demos and group meetings and viewed testimonials from Malaysian Independent Distributors. Pavan bought a Kangen Water machine. Since Enagic India was launching and Pavan and Prakash were convinced Kangen Water would “rock India soon,” they became Independent Distributors and spearheaded sales efforts in Hyderabad.

Their first prospect was 6A Subhash Rao, who promptly introduced Kangen Water to 6A Ramadevi Madam, and the network grew from there, adding more “dynamic members.”

Pavan singled out specific team members who have been vital to business growth. “Intellectuals like 5A Dr. Madan Mohan (MRCS, DLO) have in-depth knowledge about health benefits of alkaline ionized

water,” he says. “6A3-2 Chandha Bose has in-depth knowledge about competitors of alkaline Ionized water. 6A2 Rajeev Ambhati, 6A2 Megha Murali, and 6A PV Gouda have in-depth knowledge about network business.”

“The key to success in Enagic business is teamwork,” Pavan says. “As long as relations are good, the team will grow.” He adds, “I am successful only because of

my team’s hard work and dedication.”

Pavan thrives when performing demos and hosting team meetings. He says, “I have lots of self-satisfaction as me and my friend Prakash brought positive health changes in thousands of families and changed hundreds of Independent Distributors’ lifestyles.” He now has a more concrete goal: “make every serious distributor a 6A2-3.”

Annaveni Ramesh 6A3-3

Kangen Water’s benefits that he bought a Leveluk JR11.

As an Independent Distributor, Annaveni experienced early struggles, which he attributes to local attitudes toward drinking water. He encountered a “mindset that just regular clean water is enough for survival, which ancestors were drinking.” Price points were also a challenge in a country where many people were fine with free water.

In 2016, when 6A3-3 Annaveni Ramesh first learned about Kangen Water from his former supervisor, 6A2-2 Kusuma Dayasagar. He was so convinced by

Annaveni estimates that he initially convinced 10% of the people he spoke with to view his demonstration. From that group, he sold Kangen Water machines to 2% of demo attendees.

He slowly built business momentum. "I convinced other distributors to understand the importance of expansion of business."

To keep his downline motivated, he introduced a program called Success Celebration, which brings enrichment to high-achieving downline homes. This program includes "conducting boot camps, meetings, and seminars to create vision and mission." He credits success to working non-stop for his team, making himself available at any time, and passing along valuable knowledge from a long list of top leaders.

Annaveni has enjoyed many important experiences as an Independent Distributor. "It was a first great moment when I achieved 6A because it's increased my confidence and represented me as I

am going in right way," he says. Additional Enagic income allowed him to build a house for his parents in the village where he grew up. He also bought a flat for his family in Warangal and two investment plots.

"It's very difficult to imagine my life without Enagic," Annaveni says. "Now business has spread throughout my family by my achieving -3, my wife achieving -2 and my brother achieving 6A. Enagic changed our lives completely."

"My long term and lifetime goal is to share Kangen Water and the business opportunities," he says. "Always my heart is full of gratitude to Enagic Founder Mr. Ohshiro and his family for bringing these wonderful Kangen Water devices and business opportunity to the world."

Australia Distributor Profile

Alice Huynh 6A

6A Alice Huynh discovered Kangen Water through two acquaintances, but she initially didn't give it much thought since she was so busy at work. "It wasn't until I saw my ex-boss's K8 that I inquired about seeing a demo and bought my own," she says. "Little did I know all the things different Kangen Waters can be used for to improve our family's lifestyle."

Alice experienced Kangen Water's benefits and soon shared it with family and friends. She didn't plan to become an Independent Distributor, but after seeing the positive response, Alice grew inspired. "Once you hear a customer's feedback with Kangen Water, it is such an awesome feeling," she says. "Knowing you have changed someone's life for the better, it is truly an amazing business."

Alice was born and raised in Sydney and moved with her husband to Perth in 2010. Since her arrival, she's been a sales consultant for a curtain and blind company, which has proven helpful as an Independent Distributor. "Being in sales already is definitely an advantage," Alice says. "I can easily approach people as I meet new customers everyday. I can pretty much talk to anybody."

As a full-time Independent Distributor, Alice has gained newfound freedom and can even pick up her kids from school. She also has time to enjoy her favorite pastime. "When I'm not working, I'm cooking" she says.

Her first sale was to a close friend, which made the experience especially satisfying. “She is very careful with everything she buys and does proper research,” Alice says. “So when I told her about Kangen Water, she already knew about this amazing product and had no hesitations in buying one for the whole family and of course to support my business.”

Alice achieved 6A after six months. Her next goal is 6A2-3. “At first, this seemed nearly impossible, but once I reached 6A, I can see this is a very realistic goal to strive for. It is now just a matter of how determined and focused you are.” She’ll continue to work hard to keep her team motivated and grow her network. She says, “It is important to keep up the momentum, keep on sharing Kangen Water, the business, and True Health.”

Enagic 47th Anniversary Celebration at E8PA

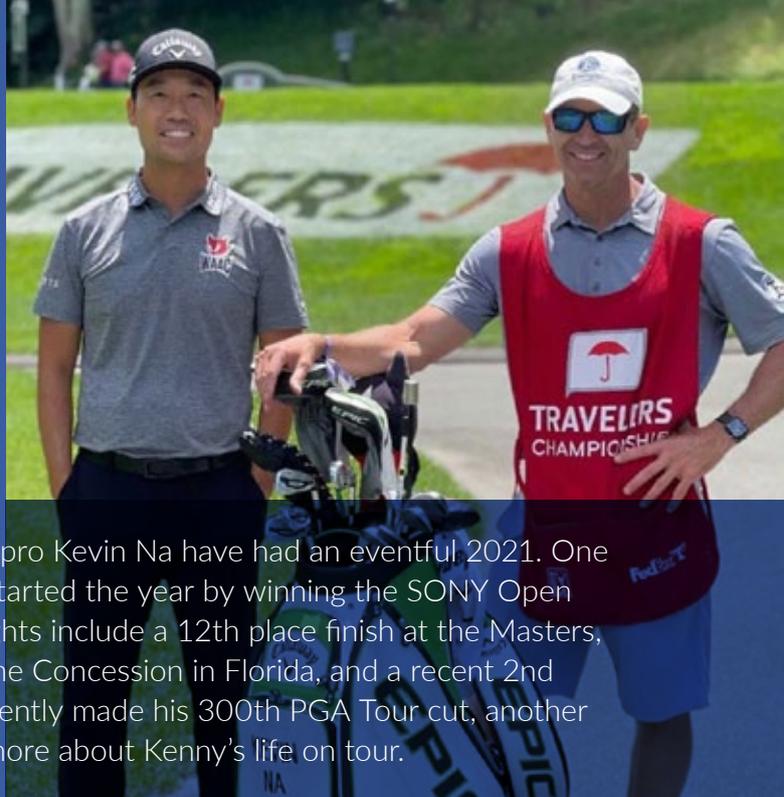

Enagic celebrated the company's 47th anniversary. On June 21, approximately 100 people, including Okinawa-based Independent Distributors and staff members, gathered at E8PA Hall. VIP speakers included Enagic Founder and CEO Hironari Ohshiro, Executive Vice President Hiroki Ohshiro, Global Sales Director Nick Nakao and 6A2-4 Etsuko Kinjo. They acknowledged the dedication so many people have shown to make Enagic a success and wished everybody a successful journey for the next 47 years.

Mr. Ohshiro started his speech by recounting his 47-year road both uphill and downhill. The challenges and triumphs he's overcome on this journey that have made him the person he is today. Mr. Ohshiro acknowledged the global crisis that has challenged our physical, mental and financial health. Only by staying authentic and independent during this time can we achieve True Health. Stand up for people who need our help on the way. Love and compassion can create momentum that can change the world.

CADDIE KENNY HARMS AND PGA PRO KEVIN NA LOOK TO ADD TO THEIR 2021 WIN TOTAL

Enagic-sponsored Caddie Kenny Harms and PGA pro Kevin Na have had an eventful 2021. One of professional golf's longest player/caddie duos started the year by winning the SONY Open at Wai'alaie Country Club in January. Other highlights include a 12th place finish at the Masters, 11th place at the World Golf Championships at The Concession in Florida, and a recent 2nd place finish at TPC Deere Run in Illinois. Kevin recently made his 300th PGA Tour cut, another impressive milestone in his storied career. Learn more about Kenny's life on tour.

DESCRIBE WINNING THE SONY OPEN IN HAWAII. HOW DID YOU AND KEVIN CELEBRATE?

On Wednesday, Kevin popped one of the ribs out of his back and we weren't even sure if we were going to tee off on Thursday. To have a chance to win coming down the stretch on Sunday and birdieing the hole was really special. His wife was there and his little baby girl. When we got done, we did the whole interview process and went back to the Ritz-Carlton where Kevin was staying and ordered a bunch of Korean food and waited for our flight. We were on the charter flight to Palm Springs that night. It was more just about enjoying the moment and being with his family... There is no better feeling in golf than winning a PGA Tour event.

HOW DO YOU FEEL ABOUT KEVIN FINISHING 12TH AT THE MASTERS?

They played two Masters within six months. He finished 13th back in November, then he finished 12th. If you finish tied for 12th or better, you get into next year's Masters. A lot of excitement... Having Kevin finishing 12th and then having our friend Hideki Matsuyama winning was that much more special. To see the first Asian golfer and obviously the first Japanese golfer to ever win the Masters, it was a really special day.

WHAT DO YOU FEEL MAKES COMPETING AT THE MASTERS SO UNIQUE?

Jack Nicklaus won six times. Tiger Woods won five times. Arnold Palmer won four times. Phil Mickelson won three times. It's got a lot of great past champions. It's a really special golf course. Always in amazing shape. The

members are really welcoming to the players and caddies alike. We get to hang out with them by the driving range...It's a special place, for sure. You always look forward to going back to Augusta, to the Masters.

WHAT OTHER TOURNAMENTS STAND OUT MOST TO YOU FROM THE PAST YEAR EITHER DUE TO THE RESULTS OR THE EXPERIENCES?

Obviously, the SONY Open, Kevin winning there. Then two years ago, when he won Colonial. I always look forward to the Major Championships. U.S. Open at Torrey was nice this year. Unfortunately we didn't play very well.

ARE YOU FRIENDS WITH OTHER CADDIES? HOW WOULD YOU DESCRIBE THE CADDIE FRATERNITY?

It is a big family out on the PGA Tour. Players and caddies, the staff, the volunteers, and everybody that goes from tournament to tournament...The caddie network, there are some cliques, but mainly everybody has got each other's back. One thing you're doing on a golf course, you're not just working for your player. If you're in a threesome, you're actually taking care of the other two players and helping the two other caddies as well. Let's say one of the guys hits it in the fairway bunker and he doesn't hit the green, you'll go over and help the other caddie and rake the bunker for him so you can help his player and keep the pace going. Don't fall behind.

I've got some good friends. I usually stay in hotels by myself, but if we're in an area where we can get an Airbnb or VRBO house, I'll go in with a couple caddies and stay with them. Just chill out, relax and play gin (a card game) at night or watch some TV.

Other than that, you're always with the same guys in the hitting area at the same time, so you're always catching up to see how they're doing and how their family's doing and talking about their last week. It's a pretty good family out here.

WHAT ARE YOUR PROFESSIONAL GOALS FOR THE REST OF THE YEAR? SPECIFY FOR BOTH YOU AND KEVIN.

We have to get back in the winners circle. Unfortunately, we didn't make it into the Olympics. Probably as of right now, we'll have to play really well the next three months to get into the Ryder Cup. Those are probably the main goals.

WHAT HAS BEEN THE BEST MEAL YOU'VE EATEN ON TOUR THIS YEAR?

We stayed at a golf course in South Carolina called Sage Valley. One of Kevin's friends is a member there and they put us up every year for the Masters... The meal on the Sunday after we finished 12th, I had a nice bottle of Burly Special Select red wine. It's a Cabernet. They have a special steak called a cap steak, and then had some Brussels sprouts with it and some fingerling potatoes. It's a 10/10 every time.

YOU REVIEW LOCAL PIZZERIAS ON INSTAGRAM. WHAT'S YOUR FAVORITE PIZZA STYLE, FAVORITE PIZZERIA AND PREFERRED TOPPINGS?

New York City is probably my favorite pizza in the world. Lazzara's and John's of Bleecker are my two top favorites. John's of Bleecker is coal fired, thin crust. Lazzara's is actually a square pie, where John's of Bleecker is a round pie. It had by far the best crust I've had in my life. Just phenomenal. Both of them were. I think I rated both of them 9.2 out of 10. You've always got to leave a little bit or room just in case you run into one that's a little better.

Last week I went to four different pizza places in Connecticut. Zuppardi's and Roseland were my two favorites. I think one was an 8.5 and one was an 8.4. They have some really good pizza in New Haven, Connecticut. It's not New York, but Connecticut and New Jersey are a toss-up for second favorite. I only eat cheese pizza when I rate them, but my favorite topping if I wasn't doing just cheese would be sausage.

HOW DOES KEVIN BALANCE GOLF AND BEING A FATHER?

He loves golf as well, but he's really a great dad and a great husband. He hasn't played as much because he likes being at home... He really wants to get back in that winner's circle now, so I'm expecting a really great summer... It's not easy being away from your family. He tries to have them out as much as possible... Kids are a handful. It takes a lot of time. It takes a lot of effort. He's really balanced it pretty well.

WHAT DO YOU LIKE TO DO IN YOUR SPARE TIME? ANY HOBBIES OR PASTIMES?

I play a little bit of golf, not like I'm used to. Right now, I'm going through a huge renovation on a house I bought four years ago. I gutted it all the way down to the cement walls... I've been doing that for almost six months now. It's probably going to be another six months before we finish it. When I get home, pretty much all my time is spent with that... I like to mountain bike, though there's not much mountain biking in Florida. I like to fish. We've got some great fishing at Lake Nona Golf & Country

Club. I love cooking. I love to have friends and family over. Open up a bottle of wine and barbecue. I like hanging out with my friends... Every Wednesday night, we play gin.

HOW DID YOU BECOME SO INTERESTED IN CARS?

When I turned 17, for my first car, I bought an old 1973 Camaro. I had a friend that worked at a hot rod shop, so I wound up building a motor, 327 engine. That's kind of where it all started. Then my uncle would race Porsches, so I fell in love with Porsches. In 1998, I bought this 911 Carrera, which turned into a collector's item, so I got pretty lucky with

that. Then I've got another Porsche, Cayenne Turbo S. I like fast cars.

When we were doing some promo work for the 2019 Charles Schwab, I saw the '73 Challenger. [The winner received this car as one prize.] It was my favorite color, blue. I posted on Instagram and said, "Hey, Kevin, when we win this, I think I'd look a lot better with my baby blue eyes than you would. You need to give it to me." When we were there at the tournament, on Tuesday, we were playing at a practice round with K.H. Lee and Sung-jae Im. There was a little silence on the 10th tee and the car was on my mind, so I said, "Hey, Kevin, when we win this week, are you going to give me the car?" He kind of looked at the car, looked at me, looked at the car, looked at me, and he goes, "Yeah, if I win." I said, "No, no, no, not if you win, when you win, will you give me the car?" He goes, "Yeah, I'll give you the car if I win." When he knocked in that last put he turned around, looked at the car and said, "That's your car."

WOULD YOU SAY THAT 1973 CHALLENGER IS YOUR DREAM CAR?

I always wanted a muscle car and I always wanted a Porsche growing up. A real muscle car, like an old school Shelby or an old Barracuda, but when I saw that one, I thought, "That's it. That's what I want."... It's kind of nice to have something old like that and classic and then something newer.

Congratulations to each of you for your outstanding achievement!

Stories of Success

Skills Acquired Through Struggle Lead to Success

Ohshiro and his wife spent much of their early adult life struggling through a series of failures, setbacks, and doors closing in their faces. They set themselves down in a tiny room in the Shinagawa area of Tokyo, without a penny to their name, and eked out an existence. Their only capital was themselves. What did they learn from their failures? Endurance, hope, ingenuity, tireless effort. And how to gamble, too. These qualities and skills became the capital that would lead them to success.

Above is an excerpt from the book **Quenching the Thirst for Global Success, the Success Story of Hironari Ohshiro**. Toshio M. (2015)

It is filled with incredible lessons, motivational stories and the actions that were taken to create Enagic. A must-read for distributors, it is available at

 www.enagic.com/shop

Also available in Chinese, Italian, French, Spanish and Japanese! Contact your local branch office for details.
